

WATERSHED EXPLORATION: Dissect the Watershed

Who is Inland Seas Education Association?

Inland Seas Education Association is more than a ship! Expand your group's Great Lakes knowledge and experience by participating in our land-based, STEM watershed programs throughout the entire year. Protect the Great Lakes by understanding watersheds, and exposing youth to Great Lakes careers. Come for a day or stay overnight!

Program

Collect and dissect native and invasive plants and animals (e.g. cattails and mussels). Compare native and invasives to learn about the advantageous adaptations that allow invasives to outcompete native species.
