

WATERSHED EXPLORATION: Watershed Watchers

Who is Inland Seas Education Association?

Inland Seas Education Association is more than a ship! Expand your group's Great Lakes knowledge and experience by participating in our land-based, STEM watershed programs throughout the entire year. Protect the Great Lakes by understanding watersheds, and exposing youth to Great Lakes careers. Come for a day or stay overnight!

Program

In Watershed Watchers, act as watershed scientists to monitor the health of a stream. Use macroinvertebrate and water chemistry investigations to assess water quality and compare to past readings.
